### ACTIVITIES OF THE ASSOCIATION DURING THE YEAR 2023-2024

#### INAUGURATION OF ASSOCIATION & CULTURAL EVENTS

On October 12, 2023, a significant event took place at the Mother Teresa College auditorium—the official inauguration of the Mathematics Association. Dr. K.Y. Benedict, our esteemed principal, graced the occasion and ceremoniously inaugurated the association. The event commenced at 3 p.m. with a solemn prayer, led by Miss Anusree and Miss Nandana, setting a reverent tone for the proceedings. This was followed by a warm and inspiring welcoming address delivered by Miss Akhara, representing the Mathematics department.

A pivotal moment of the ceremony was when our principal unveiled the distinctive "AIM" logo, symbolizing the aspirations and goals of the newly formed Mathematics Association. This marked the official launch of the association, signifying a new chapter in the academic and extracurricular pursuits of the students. Mrs. Hasifa, the assistant class monitor, skillfully navigated as the host throughout the event, ensuring its smooth flow and engaging the audience with her charm and grace. Following the formalities of the opening ceremony, the

mathematics students took center stage, showcasing their talents and creativity through a series of captivating games and cultural events, all cleverly themed around mathematics. This not only entertained the attendees but also underscored the fun and interdisciplinary nature of mathematics.

As the event drew to a close, Mrs. Anjana expressed heartfelt appreciation on behalf of everyone present, extending a warm vote of gratitude to all those who contributed to the success of the event.

To provide valuable feedback and insights, Asst. Prof. Rathish K. shared a comprehensive review of the proceedings, offering commendations and suggestions for future endeavors. With his insightful remarks, the program concluded at 4 p.m., leaving a lasting impression on all who attended and paving the way for a vibrant and dynamic journey ahead for the Mathematics Association.

## PI APPROXIMATION DAY CELEBRATION

The Mathematics Club at Mother Teresa College commemorated Pi-Day on March 14, 2004, with an enthusiastic celebration held in the grandeur of the college auditorium. The event commenced with great anticipation as Rev. Father Joseph Vayalil CMI, an esteemed figure within the college community, officiated the official program launch, setting a tone of reverence and excitement for what was to follow.

As the clock struck 2:00 PM, the atmosphere filled with solemnity as Miss Namitha led the congregation in a heartfelt prayer, invoking blessings for the success of the event. Following this, Miss Amrutheshwari extended a warm welcome to all attendees, setting the

stage for the festivities ahead. A highlight of the proceedings was a captivating speech delivered by Assistant Professor Uma P., whose eloquence and insight captivated the audience, offering a fictitious yet thought-provoking perspective on the significance of mathematics in our lives.

However, stealing the spotlight and serving as the focal point of the entire program was Mrs. Hasifa, whose charismatic presence and leadership skills ensured the seamless execution of the day's events. With her guidance, the eagerly anticipated games commenced, inviting participation from students across various departments. From the thrill of a treasure hunt to the strategic challenge of mathematical chair and the mental acuity required for the memory game and mathematics relay, the games provided a blend of excitement and intellectual stimulation for all involved.

As the competition reached its climax, the deserving winners were duly rewarded with prizes, their achievements celebrated by the entire audience. Wrapping up the festivities, Dr. K.Y. Benedict, the esteemed principal of Mother Teresa College, undertook the responsibility of evaluating the program, offering valuable insights and commendations for future endeavors. With the clock striking 4 p.m., the curtains closed on a day filled with camaraderie, intellectual engagement, and spirited competition, leaving indelible memories for all who attended and setting a high standard for future celebrations by the Mathematics Club at Mother Teresa College.

In accordance with Pi Day celebrations, five students from the Mathematics department also participated in the 'Pi-Logo' intercollegiate math fest organized by Providence College of Teacher Education on March 15, 2024. They took part in both the quiz competition and treasure hunt, advancing to the finals and receiving participation certificates.
